

Omar Abdel bari

LETTER OF AGREEMENT (LOA)

Swappza

Oct 1, 2014

I have set out below a description of the services that we, AbdulRahman Khodr, Ahmad Khodr and Chaudhry Zarak Aslam ("Swappza") will be providing payment to you Omar Abdel Bari ("Omar"), together with our agreed on fees. You will provide the following services:

- Custom Web-development for a new barter website.
- Website will consist of the following pages (Mock-up Designs sent via email and discussed in person over various meetings):
 - HomePage:
 - As discussed the site should allow users to continuously scroll through trade listings (swaps) rather than having pages. In addition there should be an advertisement every 5 swaps listed.
 - A scroll to the bottom and top page.
 - Homepage title with cash
 - SwapListing:
 - Pretty simple, we also want the user to contact directly from our site, so the email is not visible. The phone number will show only if the user is logged in.
 - Will show the amount of visitors on the page and the date posted
 - shows how far it is from your address if your logged in.
 - SwapProfile:
 - shows username, address and swapps posted/made (made based off what's marked as 'Swapped').
 - User can delete/edit the post from here as well
 - Change their account settings.
 - If possible perhaps when someone replies it goes to their PM system on our site (if too much work it's not worth the added work).
 - SignIn/Register:
 - Sign in via Google, Facebook or through our site.
 - Register via our site.
 - Category page/Search.
 - PostSwap
 - for upload pic, like mentioned we want they can crop the image and will have a max size they can upload.
 - New Swaps:
 - Same as homepage but without searching, just list the newly added swaps.
 - Any other pages discussed but not mentioned above
- Responsible for adding categories, subcategories, filtering system, province and city as sent by us.
- Backend system to allow us to edit and add new cities, categories, subcategories and filtering system.
- Ability for an eCommerce site such as paying for your swap to be listed on top.
- Implementation of any function discussed but not mentioned above

Final Deliverables:

- *Complete Website hosted on our server. Both Swappza.ca for Canadian provinces and cities and Swappza.com for US states and cities.*

Delivery Terms:

- *Progress updates roughly every 2 weeks provided by Omar.*
- *Swappza to pay via the best payment method provided by Omar. Payment will be in 3 installments:*
 - *\$200 in the first installment which will be after the signing of this agreement.*
 - *\$250 in the second installment once 60% of the project has been completed (estimate: November 17, 2014)*
 - *\$350 in the final installment once 100% of the project has been completed as deemed by Swappza as finished (estimate: December 15, 2014)*

If you agree that the foregoing fairly sets out your understanding of our mutual responsibilities, please sign a copy of this letter in the space indicated below.
